INSTAFIRE® FIRE AND CHARCOAL FIRESTARTER

For those who need a reliable fire starter, Insta-Fire is without doubt the safest and most reliable fuel and fire starter on the market. Propane and liquid fuels are difficult to store and unsafe to use. They degrade over time, and are subjected to city storage ordinances because of their volatile nature. In contrast, Insta-Fire is stable, it is not volatile. There are no risks of unexpected explosions or fires. As an added bonus, Insta-Fire is made of all natural ingredients that are so safe, they can be used in a fire place, fire pit or on a boy scout trip!

- INSTAFIRE is the first Water and Wind resistant fire starter
- Instafire burns at 1000° F (540 °C) and burns wood or lights charcoal fast
- Burns green, no harmful chemicals or vapours
- Burns in wind, rain, sleet or snow
- Lights first time
- Each pouch burns 10 to 15 minutes
- Non combustible, so no risks for unexpected fires or flare ups
- Safely stores near food
- Insta-Fire's left over ash is an Eco

NO. 2380 SINGLE POUCH

- Each pouch will light up to 4 fires
- Burns in wind, rain sleet and snow
- Lightweight and easily carried anywhere
- Burns green, no harmful chemicals or vapours

NO. 2382 3-POUCH PACK

- Contains 3 single pouches

A Natural Method of Repelling Pesky Deer and Horse Flies

Why and How it works...

Deer and horse flies are primarily visual hunters that are relentless in their pursuit of a blood meal. However, when they spot a dragonfly, their most feared predator they flee. The Dragonfly Wingman® simulates a real dragonfly in flight using a "scarecrow approach" that naturally fools these flies by tapping into Mother Nature's Predatory Laws!

GREAT FOR

- Camping, Fishing, Boating, Canoeing, Kayaking, Paddle Boarding, Hiking, Walking, Running, Gardening, Horseback Riding, Swimming or Just Sitting on the Dock

Great for horses and pets too...

Dragonfly Wingman® a Canadian Designed Product
